Only Hog Placed in Hall of Champions Is From Randall

HALES HERD LEADS

Local Breeders Place with Leading Breeders of Nation

Two animals from Randall county were placed in the 1932 "Hall of Champions" of the State Fair of Texas which closed last Sunday.

The only hog in Texas placing in the "Hall of Champions" was a sow owned by the Tierra Blanca Hog Farm in Canyon.

A Senior Yearling Holstein heifer owned by R. P. Hales, a 4-H club boy of Randall county was one of the two Texas dairy animals listed in the "Hall of Champions" this year. The other champion animals in the dairy cattle and hog divisions of the fair were shown by out-of-state exhibitors.

Showing for the first time against competition of nationally known breeders from Illinois, Missouri, Iowa, Wisconsin, and Kansas, the purebred Holsteins owned by H. B. Hales and sons of the Zita community, won a long list of premiums at the State Fair of Texas which closed last Sunday.

The winnings of this herd gave it the rank of the outstanding Holstein herd in Texas which exhibited at the fair this year.

Besides winnings of the two Hales boys in the 4-H club division of the fair, the list of premiums in the Texas and open classes were given as follows:

First: heifer calf 4 months and under 1 year; heifer not in milk; heifer 18 months and under 2 years; cow 3 years old and under 4; bull calf 4 months and under 1 year; bull 1 year and under 18 months; bull 4 years or over; heifer 2 years and under 3; cow 5 years or over.

Second: heifer not in milk. Third: bull 4 years or over; heifer not in milk.

Fourth: Junior heifer calf. Fifth: Senior bull calf.

Sixth: Junior bull yearling; cow 5 years old or over; heifer 2 years old and under 3; calf herd; cow 3 years and under 4; junior yearling heifer.

W. T. Turned a Balance Back to State Treasury

At the close of the fiscal year, ending August 21st, the West Texas State Teachers College turned back to the state treasury \$305.99 of unexpended appropriations. Of this amount, \$105 was not used of the appropriation for the auditorium; \$49 for the boiler house, and the balance in small amounts not used in various departments. All of the state departments returned a total of \$2,000,303.85 which was not expended during the last fiscal year.

Cow Stolen From R. O. Allison Is Taken by Truck

The best milk cow from R. O. Allison's herd was stolen Thursday night and hauled away in a truck. The truck was followed over country roads as far as Hereford where it went onto the highway, and all trace was lost.

The thieves went into the lot at the Allison farm west of Canyon and selected the cow from the herd which they wanted. Tracks indicate that she was led some distance up the road to where the truck had been backed into the ditch to allow easy loading facilities. The truck then followed side roads until Hereford was reached, where it was driven onto the highway.

No clues have been found so far as to the identity of the guilty parties.

Upchurch Returned Tuesday From the Dallas State Fair

Mr. and Mrs. W. H. Upchurch returned Tuesday from Dallas where they were in charge of the Randall county exhibit at the Dallas State Fair. The exhibit won fourth place, which was the lowest place that Mr. Upchurch has ever taken at that fair. The rains following the Tri-State Fair made it impossible for the exhibit to be renewed with fresh material before going to Dallas.

Mr. Upchurch stated that the competition was stronger this year than ever before. Of the 52 counties having exhibits at least 20 came with the idea of winning first place, and brought very fine exhibits.

The agriculture show this year attracted more people than usual, while the machinery display and the auto show declined in interest, stated Mr. Upchurch.

Moisture and Cold Weather Features of the Past Week

Rain amounting to .50 of an inch Thursday night and snow Monday night amounting to .10 of an inch, together with a temperature of 30 degrees above zero yesterday morning were the features of the weather the past week.

The rains were not particularly welcomed by farmers who are trying to get the wheat planted and save the feed crop, but the delay by the light rains has not been great.

Snow fell during Monday night, but melted as soon as it hit the ground, as the temperature did not fall below freezing. The coldest weather came Wednesday morning from 6 to 8 o'clock when the mercury stood at 30 degrees above zero.

A. C. C. HERE FRIDAY NIGHT TO MEET BUFFS

CAPTAIN McCLENDON PREDICTS A WIN.

Wildcats Expected to Put Up Hard Battle Against the Giant Buffs at Buffalo Park.

Friday night, October 28, Coach Burton and his herd of championship-aspiring Buffaloes will entertain the Abilene Christian College crew of footballers at Buffalo Stadium from 8 p. m. until a settlement is reached concerning the relative superiority of the two squads.

Upon pre-game predictions, taken from the ever tricky dope sheet, the Buffs enjoy a slight advantage due to their decisive defeat last week of McMurry, victors over A. C. C. by a 3-0 margin. However, A. C. C. is now reported to be the stronger of the two, having improved much since the season opened.

The game will go a long way toward deciding the T. I. A. A. Champs since it leaves the Buffs with only Sul Ross to contend with. If A. C. C. should win, the Buffaloes get a tie for first place if they in turn defeat Sul Ross the following week end. But if the locals win both games, W. T. should be roosting at the top when the season ends.

However, there is Texas A. & I. The Buffaloes do not have a scheduled game with them. If both squads should be undefeated it is possible that a game would be arranged to decide the undisputed championship of the T. I. A. A. in its last year of existence.

Assistant coach C. J. Crump, and Bill McClendon and Otis Burk, captain and quarter back respectively of the Buffaloes, scouted the A. C. C.-Sul Ross game in Abilene Friday—won by Sul Ross, 14-7, the winners scoring the winning points in the last 45 seconds of play.

Both teams remain on the Buffaloes schedule.

"They are our meat," quoth Cap'n McClendon yesterday, with his customary confidence. "The Abilene fellows are small men—but fast. The Lobos have a heavier team than ours. But you watch. We'll win."

Printing Bought Out of Town Is Usually Higher

Printing bought away from Canyon usually is higher in price than printing bought in Canyon. Stop and figure it. Printing bought away comes C. O. D., which adds from 30 per cent to 50 per cent to the cost of the purchase.

Add these transportation charges, and the cost of printing in Canyon is nearly always lower. The prices in Canyon are often no more than the mail order printer would charge. Money spent for printing in Canyon comes back to the community in salaries, taxes and incidentals—all of which make business for the business firms of Canyon.

Money sent to mail order printing firms is gone forever—helping build industries in other towns.

Iris Bulbs Free at the News Office

One hundred iris bulbs were given to the News Monday by Miss Mary A. Lamb for distribution to those in Canyon who wish to beautify their homes. These bulbs are in excellent condition, and in eight colors.

The News asks that other citizens who have a surplus of bulbs to kindly notify this office, and some one will be sent for the bulbs which will be distributed free to citizens of Canyon.

Cooperation on the part of all citizens of Canyon in beautifying the city will add very greatly to the attractiveness of Canyon. Let the News know if you have surplus of flowers, and we shall see that they reach people who wish to beautify their homes.

Bullington Will Speak Here Nov. 5th at 5 p. m.

Orville Bullington, Republican candidate for Governor of Texas, will speak in Canyon at 5:00 o'clock p. m. on November 5th. A large all-Panhandle rally will be held at Amarillo that night at 8:00 o'clock.

Workers for Bullington were in the city Monday distributing literature and urging that the voters hear him when he visits the city. Most of the workers in the field are Democrats who are opposed to the election of Mrs. Ferguson.

Election Ballot Printed in This Issue of the News

The ballot for the general election on November 8th is printed in this issue of the News in order that the voters may see the form which they will have to vote. The ballot is consolidated into a much smaller space than the voters will find on the ballot to be used in the election.

Mrs. Berl E. Mayfield has mailed 17 ballots in response to requests for absentee ballots, which is a record so far as the general election is concerned.

Rock Crushing Is Started for Highway to the West

Crushing of rock for the topping on Highway 33, west from Canyon, was started yesterday on the T. A. Dowlen place. The engineers located a high grade rock which is being used for the topping of the caliche base which has been put down for the highway. The asphalt will hold the topping of the crushed rock.

Rapid progress is being made on the highways of the county, with the possibility that all of the construction underway will be completed during the next sixty days.

THE HOMESTEAD AMENDMENT

To be very frank about it, The News is now opposed to the constitutional amendment exempting homesteads to the value of \$3,000. When this amendment was proposed, it looked all right. There was no particular reason why the state could not exempt homesteads, as it had the power to tax other things in order to make up the five or ten millions of dollars which will be taken off the tax rolls. The state will be able to get all the money it needs. It may impose a sales tax, or luxury tax, which might amount to more than the exemption that the homestead owner received.

But now comes another angle, which makes this amendment very objectionable and should cause its defeat. Able lawyers now say that the exemption will apply not only to the state, but also to the local school districts, the counties and cities. If their deduction is true, it would virtually close the Canyon schools, as the district would have no means through which funds could be raised. The school children of Canyon are the greatest assets of this community. To give the boys and girls an education is the only worthwhile thing that the men and women of this generation are able to do for them. To wreck the school districts of Texas with an idea of saving a little tax money would be the height of folly on the part of the voters.

The same would be true of the city of Canyon and the county of Randall. To take away the taxing powers of these local governments would be the worst thing which could possibly happen.

We hope the lawyers are wrong, as this amendment is likely to carry. But it is folly to support the amendment with the understanding of the danger confronting the local institutions. So far as the state is concerned, there is no danger. But if the exemption is extended, as these lawyers claim, to the local governments, then only chaos will result, and no man can estimate the damage that will result from the amendment.

The News thought at first that the amendment was good, and advocated it. As the case now stands, it should be defeated, and badly defeated by those interested in the local schools, the city government and the county government.

Fine work, officers. A bunch of drunks were thrown in jail Saturday night where they were allowed to sober up, and incidentally pay a fine to the city. They were all out-of-town men who came here for the Amarillo-Plainview football game. Whether they brought their booze with them, or bought it in Canyon is beside the question. The fact that they were intoxicated

and creating a disturbance in the grandstand was a challenge to the officers to protect the name of Canyon. Visitors or home folks, had they been allowed to continue, Canyon's reputation would have suffered and more people would be saying that in Canyon liquor could be easily purchased and openly drunk without police interference. Football games are fine, but football and booze do not mix. Congratulations to the officers who are doing their duty in redeeming the name of Canyon from the unfavorable comments directed toward this city on the booze question. If every intoxicated man found in Canyon, whether visitor or local citizen is promptly thrown in jail, there will be less drinking in the city. Keep up the good work, boys; the law abiding people of Canyon are behind you.

President Hoover is fighting back in his campaign speeches. His talks sound more like the old time blood and thunder campaigns of 30 years ago than anything recently heard. The President realizes that his is the lost cause unless he is able to stem the tide which has taken thousands of votes from the Republican party. Perhaps the great change in sentiment is only a reflection of the prevailing economic condition, but nevertheless, the President must bear all of the blame. In slashing out against the Democratic leaders, he is hardly more than bolstering up the spirit of his party leaders, but even this will be of able assistance to the Republicans. In the meanwhile, the Democratic leaders are having a real picnic in tearing through the armament of the Republicans. The party in power during times like these has plenty to answer for. The Democrats are not failing to capitalize upon the deficiencies and shortcomings of those in power. The vote against the Republicans in November will probably be as large as the votes cast in favor of the Democrats, thus insuring a very lop-sided Democratic victory.

They are putting on a fight against crime down at Lubbock, with every lawyer agreeing not to defend criminals for a period of one year unless appointed by the court. Admitting the presence of the crime wave, and taking active steps to curb it will probably be a shock to many people, who like to hide their heads like an ostrich in the presence of danger. There has been too much of this kind of stuff in America, and crime thrives while the sentimentalists are trying to explain that there is no such thing, or at least that it does not exist in their presence. Aggressive steps on the part of those interested in law and order will be the only means of restoring confidence in government. Crime is crime, whether it be murder, hi-jacking or bootlegging. When all of the supposedly law-abiding citizens make up their minds to stop this crime wave, it will stop. Until that time, the monster will continue to flourish.

Franklin D. Roosevelt has spoken again as regards the bonus, and, as he said about all that he could say—pay it when there is money. The bonus is a note of the United States government due and payable in 1943. There is a certain percent of the ex-service men demanding that it be paid now, regardless of whether Uncle Sam has the money. Ex-service men should put themselves in Uncle Sam's boots for a minute and consider what they as individuals

Hoover, Roosevelt Ancestors Have Been Americans for Over 200 Years

REGARDLESS of whether Herbert Hoover or Franklin D. Roosevelt is elected president of the United States on Nov. 8, the nation's next chief executive will be a man whose family line in America dates back more than 200 years.

Roosevelt's line is the oldest, his distant grandfather having immigrated from Holland about 1636. Hoover's ancestors came over from Germany about 1730.

According to those who are familiar with the Hoover genealogy, the founder of the line in America was Andrew Hoover who, as a boy, settled in Pennsylvania about 1730. After his marriage to a certain Margaret Fouts they moved to Maryland where several children were born.

About 1754, Andrew Hoover and his wife moved to the new settlements in Randolph county, in the upcountry of North Carolina. The family lived there until the early years of the 19th century when slavery arose and the Hoovers, with other Quakers, departed for Ohio, where slavery did not exist.

After a short time in Ohio, they continued their journey by wagon train to Indiana and settled as pioneers near where Richmond, Ind., now stands. From there they spread to Iowa, where the president was born, and to other states in the west.

Herbert Hoover is of the seventh generation of Hoovers in America. His father was Jesse Hoover, the village blacksmith in West Branch, Ia. His mother was Hulda Randall Minthorn. Both of his parents died before he was 10 years old, leaving him an orphan boy to work his own way upward in the world with such assistance as his relatives were able to provide.

FRANKLIN D. ROOSEVELT'S line in America dates back to Claes van America, who immigrated from Holland and settled in New Amsterdam about 1636. Later, when New Amsterdam passed from the Dutch to the English and became New York the "van" was dropped from the name.

Claes' son, Nicholas van Roosevelt, was the great-great-great-grandfather of both Franklin D. Roosevelt and the late President Theodore Roosevelt and their common ancestor Theodore Roosevelt second line is descended from Nicholas second son, Johannes, the Franklin Roosevelt line is descended from

uals would do if they had signed notes due in 1943 and the holders should walk up and demand payment at once. That is the business side of the deal, upon which both Mr. Roosevelt and President Hoover have agreed. Of course there is no answer to the argument that ex-service men need the money right now and the payment would greatly relieve thousands of those in distress. But with a two billion dollar deficit facing the government, the payment cannot be made. Both the candidates of the major parties agree upon this question.

Judge A. B. Martin defended the courts in a public speech in Amarillo last week, showing that with all of the delays in American court procedures, justice is eventually rendered. Judge Martin lays the blame upon the back-slapping sheriffs who manage to get elected upon this one qualification.

his third son, Jacobus. The former branch of the family turned Republican during the Civil War and has remained so. The others were "Union Democrats."

The Roosevelts have lived in New York ever since the founder of the family arrived there 300 years ago. Through various generations they became wealthy by the purchase of real estate which steadily increased in value; in 1817 James Roosevelt, great-grandfather of Franklin D. Roosevelt, bought 150 acres in what is now upper Manhattan for \$20,000. The latter's grandson, another

James Roosevelt, was a wealthy vice president of the Delaware & Hudson railroad and the father of Franklin D. Roosevelt.

Franklin D. Roosevelt was born on the family's 500-acre estate near New York city on Jan. 30, 1882. On March 17, 1905, he married his sixth cousin, Miss Anna Eleanor Roosevelt, a niece of Theodore Roosevelt. The latter, his fifth cousin, was then president of the United States and he attended their brilliant society wedding at the family's town home in New York, giving the bride in marriage.

cation. Quoting figures he showed that more criminals are never arrested than are brought to justice. This is due to the fact that the average peace officer has no training before going into office, and spends most of his time after election in making sure that he will be reelected. The reason that European criminals are more often convicted, according to Judge Martin, is that the peace officers are trained to get their men, and to produce the evidence which will convict. This is worthy of consideration.

The district attorney in Webb county should be complimented. The district attorneys in other counties should do the same thing. Jim Ferguson charged that illegal votes were cast in Webb county. The district attorney told Jim to come before the grand jury and cite the names of the illegal voters. Jim replied that he was misinformed, and offered an apology. Governor Sterling started these wild charges by listing every county carried by Mrs. Ferguson with illegal voting. Ferguson retaliated by listing every county carried by Sterling, charging illegal voting. Both knew that they were making charges which could not be substantiated. Now the district attorneys over the State should make both retract, or show their proofs. Those in politics have no more right to make unsubstantiated charges than any other person in the state.

The Red Cross Roll Call of this year will be more vitally important to the people of Randall County than any Roll Call since the war. A Red Cross nurse is working in the county, treating the children who need treatment, and giving valuable suggestions to others in order that they may remain physically fit. Sound bodies and cultivated minds are most important to the children. That is the only thing worth one cent which the people of this generation may give to the children who will be the men and women of tomorrow. This generation owes every obligation to the children, therefore by assisting in the Roll Call we shall be able to continue the work of the nurse, teaching the boys and girls how they may have sound bodies.

The West Texas Chamber of Commerce is making a decided fight against the constitutional amendment providing for an appropriation for the Texas Centennial in 1936. The cost will possibly be \$10,000,000 and the amount of the appropriation is left to the discretion of the legislature. It is feared that the patriotic drive to be launched in favor of the Centennial may cause extravagance

BAPTIST W. M. S. HAS GENERAL MEETING

Thirty-one women attended the regular missionary and business program of the Baptist Women's Missionary Society Tuesday afternoon at three o'clock at the church. The meeting was opened by a song, following which Mrs. W. J. Hinkle led in prayer. Mrs. Frank Hicks, new president of the organization, took charge of the meeting for a business session, at which Mrs. R. T. Bowman gave the report of the Workers' Conference which was held last Thursday at Hereford.

Auxiliary delegates to the State Convention to be held at Abilene Nov. 14 and 15 were appointed as follows: Mrs. Frank Hicks, Mrs. J. R. Hicks, Mrs. W. H. Hardin, Mrs. Dewey Beck, Mrs. Ed Phillips, Mrs. Clarence Huber, and Mrs. R. T. Bowman.

The song, "Faith of Our Fathers" opened the devotional exercise which was continued by Mrs. B. F. Fronabarger in an inspirational talk the topic of which was, "Be Strong." Scripture reading was taken from Joshua 1:1-11, and was followed by a prayer led by Mrs. Fronabarger.

The Missionary lesson, which was conducted by Mrs. T. H. Knighton, was "Two Enemies of the Cause of Christ: Bottles and Bullets." Program topics were discussed by Mrs. J. M. Daugherty, Mrs. Ed Phillips, Mrs. Dewey Beck, and Mrs. Wallace Buster. A piano solo by Mrs. Stidham and a duet by Mrs. Ed Phillips and Mrs. M. L. Barnard were variety features of the program. ATTEND MEETING IN AMARILLO

On Tuesday afternoon Mrs. J. W. Shanklin, Miss Thelma Brummett, and Mrs. Geraldine Green met with the Pen Women in Amarillo.

One of the most interesting features of the meeting, according to the Canyon delegates, was the lecture and exhibit of Ben Carlton Mead. Mr. Mead is a young artist, who, on this occasion, illustrated J. Frank Dobie's book—"Coronado's Children."

METHODIST SOCIETY AT ROCKWELL HOME

Members of the Methodist Missionary Society motored to the home of Mrs. M. H. Rockwell, north of Canyon on Tuesday afternoon, where Mrs. Rockwell was assisted in entertaining by Mrs. C. A. Murray, Mrs. H. E. Clark and Mrs. W. J. Flesher of Amarillo. The guests were welcomed in rooms made gay by autumn flowers.

Mrs. R. McGee was in charge of the worship, giving the theme, "Finding God Where Jesus Found Him." Mrs. C. E. Jameson led in the devotional. "Woman Work in China," was discussed by Mrs. Faulkner, Mrs. A. A. Walker and Mrs. Ben Louder. "The Shanghai Medical School," was discussed by Mrs. C. M. Dowlen. Miss Mattie Mae Swisher sang "At Even as the Sun has set."

Following the program dainty refreshments were served by the hostess.

MAGAZINES DONATED TO RURAL SCHOOLS

Those having magazines in which school children would be interested are invited to cooperate with the Education Committee of the American Association of University Women in furnishing such magazines to the children of the rural schools of Randall county.

Last year almost 600 magazines were distributed to the rural schools which would have been unable to have them otherwise. Judge Orton states that they were of very great assistance in the school work, and the teachers are anxious to have them again.

Those wishing to donate their magazines are asked to call Miss Elizabeth Cox or Mrs. T. B. McCarter.

MRS. TERRY MAYBEN IS HOSTESS TO CLUB

Forced Retirement Is Reward of Chicago's Coach Stagg, Maker of Conference Champs and of Eckersall Bezdek and Other Grid Stars of Renown

BY PHILIP MARTIN

AMOS ALONZO STAGG... forty years on the Midway... maker of such football stars as Walter Eckersall, Wally Steffen, Hugo Bezdek, Pat Page, "Five Yards" McCarthy, Tiny Maxwell, H. O. Crisler and John Thomas... winner of six Big Ten Conference titles for the University of Chicago... a leader in the formation of the Western Conference in 1896.

His reward? Forced retirement after one of the most brilliant careers and coaching records in football, climaxed by a 7-7 tie with Yale, his alma mater, early this season.

Too old, the University of Chicago savants said. Stagg was 70, and there was a rule which prohibited anyone over 70 participating in school activities. So they decided to "retire" the fine old man and create a new position for him as chairman of the committee on intercollegiate athletics.

SUCH a position would be fit for an old man. But is Amos old at 70? Most assuredly not. His fine old face is tan, smooth and hard. His body is still sturdy enough to play a daily game of tennis and put his football charges through a rigorous session of practice.

Above all, his mind still retains the fire of his youth. It was his thinking this year that enabled his Maroon team to outplay the Yale bulldog. And it was his thinking that caused him to remark, after notification of his "retirement" that:

"I feel too young and aggressive to step altogether out of my particular work, and, frankly, I am not content to do it."

"According to my present feeling, I expect to be good for 15 to 20 years more of active service. I went into athletic work because it offered the largest opportunity for service through contact with young men. No scheme of life which removes that contact would meet with my ambition."

So, more power to Stagg. Perhaps, like the good man you can't keep down, he'll pop up again somewhere. We hope so.

The forced retirement of Head Coach Amos Alonzo Stagg, in-set, of the University of Chicago, has compelled the Grand Old Man of Football to step from the post where he has trained six Big Ten Conference champs and developed a number of all-time stars. Stagg, left, and his former assistant, Harlan (Pat) Page, are shown above.

STAGG's successor at Chicago, as director of athletics, is Thomas N. Mectalf, former coach at Oberlin, Ohio, and recent chairman of athletics at Iowa State College. Pat Page Stagg's logical successor in the head coach position, was one of the stars trained by the Grand Old Man. Page was coach at Indiana University before he went to Chicago as assistant to his former mentor.

Formula for Citron: Cut in quarters, scoop out pulp, peel; soak in lime water 12 hours, 1 c. lime, 1 gal. water; rinse, boil in clear water until tender; drain thoroughly, weigh; use as much sugar as you have in weight of citron; make syrup, using 1 cup water to 3 cups sugar; stir until dissolved; add citron and boil until syrup is entirely consumed; remove pieces, place on platters, press into shape of a scoop; let them dry perfectly in the sun; pack in jars.

B. Crystallizing Grape Fruit, Orange, Lemon, Tangerine.

1. Remove peel in quarters, cut in long narrow strips, place in sauce pan of cold water, boil 20 minutes, drain, repeat twice. This removes all bitterness.

2. After the third boiling and draining, place peel and equal weight of sugar in clean sauce pan with cold water to cover, let it come to a boil and cook until syrup threads from the spoon. Drain, roll in granulated sugar and lay criss-cross on plates.

3. Remaining syrup is used in crystallizing pulp of citrus fruits.

4. Take seed out carefully from sections, weigh, use equal amount of sugar, including residue of syrup from crystallizing peel.

5. Add 1 cup of water to 3 cups of sugar, stir until dissolved. Add quarters of fruit. Boil rapidly until all syrup is consumed. Remove, spread on platters to dry in the sun.

6. Other fruits are crystallized like citrus pulp. Plums and cherries must be blanched 15 seconds to prevent bursting or prick with a needle to prevent same. Select sound fruit.

C. Second method of crystallizing Grape Fruit Peel (Quick Method):

1 lb. grapefruit peel, 1½ lbs. sugar, 6 oz. water.

Preparation of Peel: Select bright fruit with a thick peel. Wash carefully. Grate lightly on an ordinary grater to break the oil cells. Cut this peel into strips that are 1-4 to 1-2 inch in width; or cut into small shapes. Place in a saucepan of water and for each quart of peel taken add 3 pints of cold water. Boil 10 minutes and pour off the water. Repeat three times or until as much of the bitter flavor is removed as is desired. Dry the fruit between folds of cloth, pressing gently.

Method: For each pound of peel add 1½ lbs. of sugar to .6 oz. of water. Bring to a boil and cook until the syrup is dissolved. Add the prepared peel and boil until the syrup is absorbed. Remove immediately from the fire and cool the fruit in granulated or powdered sugar.

Finishing Point: If cooking is continued for too long a period of time and evaporation carried too far, the product will be hard and unattractive. The point at which the product shall be finished may be determined by rolling a piece of the fruit when it has become transparent, in granulated sugar. If after a few minutes the fruit stiffens enough to retain its shape it is sufficiently cooked. A strip of the peel is preferred to the small shapes in making this test.

Note: If it is desired to give a variety in appearance to the finished product, the peel may be cut into small attractive shapes before being boiled. Vegetable coloring may be added to the syrup in which the peel is crystallized. Mint ginger, or other flavoring may be blended with the grape fruit flavor by adding to the syrup.

Rotary Club Hears Discussion of Ob- jects by Jameson

The objects of Rotary were discussed Tuesday by Rev. C. E. Jameson, associate member of the Canyon Rotary Club. "The man who serves only his self interest, and is not interested in those around him is doomed to failure," stated the speaker. He pointed out that the same was true with business institutions.

Sometimes things are offered to the individual and business firms which are not good. He mentioned church calendars and church directories which so often are approved by churches, yet which perform no service, but are the worst kind of graft. Business men should be interested in their churches, schools and colleges, as their businesses would not be worth much without these.

High ethics in business life, in church activities, and all phases of life is highly essential to progress. Acquaintance and friendship of the people of the community is fostered through the Rotary club, and is highly essential.

Understanding of the other fellow, his ideas and his problems makes for a closer friendship.

The birthday of Joe A. Hill on the 29th was recognized. Visitors of the club were F. A. Zimpher and Arthur Osgood, both of Amarillo.

Debate Club Is Organized By Mr. Terry

Meeting for the first time this session, the debaters of Canyon High School organized themselves into a debate club Tuesday night, October 18th. Mr. Terry was given sponsorship of this club because of the many years he has been the coach of winning teams at Olton High School, where he formerly taught.

Those present for the first meeting were: Ogden Stroud, Joe Collins, Marvin Callihan, Earl Ritchie, Robert Black, Rosa Cash, Kathryn Robinson, Robbie Lee Foster, and Mattie Lee Parker. A discussion was made of the first chapter in the High School Debate Manual, which was prepared by Mr. Terry. Although most of the students entering debate this year are inexperienced, it is believed that with the help of Mr. Terry and the earnest work of every member interested, Canyon High School will be represented by two winning teams at the District meet, which is held here in the early spring.

P.T.A. To Hold Night Session For H. S. Parents

At the business meeting of the Parent Teachers Association which met Thursday, Oct. 20, at 4:15, in the high school building, Mrs. Wm. Robinson, acted as chairman. The membership committee reported its plans for increasing the membership of the organization. The members adopted a plan to have a night session of school to which all parents, both father and mothers would be invited. Each parent is to get his child's program and meet all the classes of the child. There will be ten minutes for each class period. The purpose of this plan was to get better acquainted with the teachers and purpose of each course. This session will be held Nov. 1.

After the business meeting, Dr. R. P. Jarrett, Dean of West Texas State Teachers College, made a very interesting address on "The Child and Development of Personality."

Getting Out Paper No Picnic—Editor

Getting out this paper is no picnic. If we print jokes, people say we are silly. If we don't, they say we are too serious. If we clip anything from other papers, we are too lazy to write it down ourselves. If we don't we are "stuck" on our stuff. If we stick close to the job all day, we ought to be out hunting up news. If we do get out and try to hustle we ought to be on the job in the office. If we don't print contributions, we don't appreciate true genius. If we do the paper is filled with junk. If we make a change in a fellow's write up, we are too critical. If we don't, we are asleep. Now like as not someone will say we swiped this from some other paper. We did!

CONFERENCE GAME WON FRI. AT CLAUDE

Playing ragged football, the Canyon Eagles nosed out the Claude Mustangs 6 to 0 in their second conference tilt of the season last Friday afternoon on the Claude gridiron.

The Eagles prevented the Mustangs from making any serious scoring threats, but were unable to pierce the Claude defense to any good advantage.

Canyon's score came in the second quarter when Slack, the stocky Eagle flash halfback, caught Sewell Cox's beautiful 35 yard pass behind the goal line. The trial for extra point was unsuccessful.

If the game produced any stars they were Elliston, left end; A. Brasuel, right guard; Ellison, right end and Slack, half back of the Eagles squad. Campbell played the best game for the Mustangs. His line plunging in midfield enabled the Mustangs to register their only first down from the line of scrimmage. Their other first down came as a result of the punt Thomas fumbled and was recovered by Claude. The Eagles registered eight first downs.

Eagle "B" Squad Defeated 6 to 0

On Wednesday October 19th, the Eagle "B" squad went to Amarillo to play the Central Junior High School club and came home holding the short end of a 6-0 score.

Men performing exceptionally well for the Eagles "B" squad were Joe Collins, T. V. Slack, Jack Downing, Chris Wooten and Robert Black. Joe Collins' pass receiving enabled the "B" team to get within scoring distance many times only to be stopped by the Central defense.

C. Wooten played the outstanding defensive game for the locals at center. T. V. Slack's ball carrying ability in this game enabled him to see service in the Claude game and score Canyon's lone counter of that game.

Who's Who

Among the members of the Canyon High School faculty is Miss Grace Clark who is engaged in her sixth year in Canyon High School. She completed her high school education in Owatonna, Minnesota, and spent four years in a teachers training course in that state.

After moving to Texas, she entered West Texas State Teachers College and received her Bachelor of Science degree from that institution in 1921. She was secretary and treasurer for the Elapheians for a number of years. Because of her outstanding scholarship, she was elected to the state organization of the Lloyd Green Allen Scholarship Society. In 1930, she received her Master of Arts degree at the George Peabody Teachers College at Nashville, Tennessee. She was elected in a National honorary society, the Delta Kappa Gamma.

She has taught in the grades at Hale Center, Lockney, and Florent and in the mathematics department of Amarillo High School and Canyon High School. In the summer of 1928, she taught in the mathematics department of Canyon High School.

Mr. Barker, who heads the manual training department of Canyon High School, is a graduate of East Texas State Teachers College, receiving his B. S. degree in 1930. His major was industrial arts and his minor was social science. He did active work in the Y. M. C. A. He taught as principal of Fannin county schools for two years and one year in the Depot High School. The past summer was spent at George Peabody Teachers College at Nashville, Tennessee. He has been associated with Canyon High for three years.

Girls Athletic Club Enjoy Picnic Friday

While frying bacon in the rain last Thursday afternoon, Oct. 20, at Locust Park, the members of the Girls' Athletic Club had a good time. Although the weather encouraged the stay-at-homes, fifteen members of the club went on the hike. During the meeting they sang songs and made plans for a club memory book.

Canyon Exes Plan Second Student Banquet

The plan for the second ex-student banquet are under way.

A committee consisting of Delbert Lowes and Olive Schramm is planning this banquet. The invitations will be sent out soon and will state the place and date of the banquet.

Delbert Lowes states that he hopes all ex-students in and near Canyon make plans to attend the second annual banquet of the ex-student association.

Last year a number of 90 attended the banquet, and it is hoped that at least 180 will attend this year.

Inspection of The High School Began Wednesday

One thing that Canyon High is proud of is Miss Ahlschier, the nurse. For the past two weeks she has been examining the grade school children.

The high school pupils have each filled a health questionnaire to fill in and return with the signature of the mother and father. Nearly all of these have been returned to the office.

The high school examination was begun Wednesday.

It is very worth while for everyone to take this health examination.

EDUCATION AND WORLD BUSINESS

Our capitalistic system is being weighed in the balance. We are facing the rising tide of communism. Business has become a world aspect and is badly out of joint. The spirit of economic and political change is sweeping nations off their foundations. Our individualistic democracy, while it contains the virtues which made our country prosperous in the past, now shows fundamental faults which must be recognized and corrected before it is too late. Reformation is better than revolution. We are living in the twentieth century in the distribution of the comforts of life and rewards of labor.

This world-wide distress which has been visited upon us is due to a concurrence of causes among which are readjustments required by the scientific revolution thru which we are passing, an antiquated economic system which fails to correlate the machinery of production with the distribution of human necessities, social abnormalities created and exaggerated by the World War which took millions out of their adjusted relationships and projected them into a new world, unwarranted extravagance in governments throughout the world, excessive military expenditures in support of mistrust, and lack of adjustment of artificial trade barriers to harmonize with costs in competing countries.

We need leaders who can interpret the trends of the present depression in terms of human needs and find a way to prevent a periodical recurrence of calamity. We have the strange anomaly of vast stores of food at hand. Civilization will not be safe for some until it becomes safe for all. We must find a way to guarantee work for all; we must find a way to indemnify against penury in old age; we must find a way to relieve mankind of that fear which preys upon its vitality and makes for inefficiency in service.

Already one great nation has uprooted humanity, overturned a long-time civilization, completely destroyed an existing order, and set about erecting a new social, economic, and political regime. The spirit of change, of revolution, is sweeping the nations off their old-time foundations, destroying the institutions of the past, and erecting an entirely new and untried order.

The revival of the business of the world must depend upon a vast scheme of correlation and co-operation in this internationalized world. Today no man, no nation, can live alone. There comes a time when nations must cease to be provincial. They must get ready to take care of the flood-tide of

EAGLES MEET HAPPY JACKS TOMORROW-28

Next Friday at Buffalo Stadium the Canyon Eagles will meet the powerful Happy eleven in what is considered will be one of the Eagles' hardest games of the season.

Happy will enter the game heavy favorites, due to the fact that they defeated Claude 26-0, while the Eagles barely nosed out Claude 6 to 0.

Coach Barksdale is putting the Eagles through a stiff defensive and offensive drill this week in preparation for the Jacks.

The Eagles are wanting the support of the entire town in this game against Happy. It is rumored that the business houses of Happy are going to close their doors and come to Canyon to support the Happy club.

Everybody be at the Buffalo Stadium, Friday afternoon at 3:30 and support the Eagles in their battle against the Happy aggregation.

business and commerce when proper correlation, cooperation, and readjustment shall have healed the wounds of the world.

Education must play a great part in any reconstruction of readjustment which comes. Yet education is a two-edged sword. It makes men restless under misfortune and abuse; it gives power to the masses to overturn existing orders. Men readily turn to the theories and doctrines which they believe will give them what they wish. Once they have suffered disappointment and disillusionment they discard their dogmas and their idols.

Education is the chief ally of business and the foundation of good government. Its value to the business of the world is in direct ratio to its spread among the people. Refinement in education calls for refinement and increase in the comforts and pleasures of life. Education prepares people to absorb the products of industry. Primitive people do not materially aid markets, and economic advancement must depend on the quantity and quality of the education people receive. At the present hour education needs the support of business if it would do its full share in reestablishing the business equilibrium of the internationalized world.

Miss Ahlschier Talks to Faculty Monday Evening

The faculty met Monday, October 17, in the music room of the grade school building.

The program consisted of talks dealing with articles taken from educational journals by different teachers. One of the most outstanding talks was given by Miss Crawford who looked at the teacher through the eyes of the pupil. Another interesting talk was given by Miss Ahlschier, the Red Cross nurse, who spoke on the health problems of school children.

Refreshments of ice cream and cake were served by Miss Brasuel, Mr. Barksdale and Mr. Barker.

REPORT CARDS
After seeing how the report cards have been handled by the Student Council, we wonder how the student body feels about the matter.

The teachers promptly handed their grade sheets to the student council, who just as promptly recorded the grades on the report cards and gave them to the pupils. And did you see that mob out there in the hall at noon last Wednesday? One would have thought the president was here.

The student council has many duties this year, and this is only one of them. We should appreciate the hard work they put on these cards and return them promptly and in good shape.

The Bulletin Board

The bulletin boards of C. H. S. are now filled with various records, drawings, maps, and other reports of, for, and by the students of the school.

Class bulletin boards have charts showing ranks of students in the class, pictures of great men, and drawings of different kinds made by the students.

On the main bulletin board in the hall of the second floor are placed general announcements and the Eagles home football program. At present there are also some examples of fire prevention posters for students to follow. Last, and most dreaded by the students is the detention list which has consisted of but few names this year.

In the boys dressing room, there is no bulletin board, there are various signs of which the most interesting are: "All for one and one for all," "A quitter never wins and a winner never quits" and "The game is not over until the last whistle blows."

THE CHILD'S HAND WAS SAVED

Little Anne Fletcher, two years old, climbed to a chair beside her mother. Mrs. Fletcher, busy stirring hot taffy, didn't notice the child.

Anne had eaten taffy before. Innocently she plunged a tiny hand into the sizzling mass. Screaming, she withdrew little fingers. Boiling molasses dripped to the floor.

Almost frantic, Mrs. Fletcher ran to the telephone. A neighbor sped the child to the nearest physician. For eighteen days, treatment was given. And the child's hand was saved.*

Such an accident may not befall you. We hope it never will. But the telephone is ready day or night for emergencies . . . for business . . . for pleasure.

You can buy few things which cost so little and are worth so much.

BUFFALOES WIN FROM McMURRY LAST THURSDAY

BROTHERTON MAKES THREE TOUCHDOWNS.

Conference Win of Buffaloes at Abilene Keeps Team at Head of T. I. A. A.

Continuing their march towards another championship flag, the Buffaloes unleashed their dogs of war to defeat the McMurry Indians 19-0 in a conference game on the McMurray field at Abilene last Thursday.

Brotherton, Buffalo backfield ace, accounted for all three touchdowns, one in each of the last three quarters of the game. The first touchdown came at the beginning of the second quarter when the Buffs took the offensive in midfield and advanced to the Indians' goal for the curtain raiser.

Taking the ball on the kickoff, at the opening of the second half, the Buffs, via the Williams, Burk, Davis, and Brotherton route—drove 71 yards for their second counter, Brotherton repeating his trick of crashing over. At this stage of the game, with the Buffs on the Indian 2-yard line, Wadzeck, McMurry all-conference guard, headed a desperate rally to hold the Buffs for three downs, but weakened under the fourth attack and yielded to the inevitable.

Just one minute before the final gun the much battered Indians were forced to surrender to the

terrific pounding of "Cow" Williams, powerful leader of the Herd's offensive. He took the initiative and, with Burk, Spence, and Davis carrying on, made the final drive from the Buffs 34 yard line to McMurry's goal, with "Zeke" making it three in a row. Teague's educated toe accounted for one extra point after the second touchdown.

McMurry's big moment came in the early part of the first quarter when they were in scoring position inside the Buffalo twenty-yard line and again in the fourth quarter when they were within a hair's breadth of a first down on the Buffs' four-yard line.

Canyon Medical and Dental Society is Formed

The physicians and dentists of Canyon met last Monday night and formed an organization to be known as the Canyon Medical and Dental Society.

The organization was formed for the purpose of a closer professional and individual relationship between the physicians and dentists of the city, and to formulate and endorse a program of health for Canyon and Randall County whereby the health and lives of the citizenry might be benefited and their medical expenses cut to the minimum. The reporter of the organization states: "Our sole idea is to bring forth such a program that the people of Canyon and Randall County will be glad they live in a community where the health methods and standards are above those ordinarily found in communities of this size."

The Canyon Medical and Dental Society heartily endorses the program of the health nurse now employed in the schools. She is a Red Cross nurse, and the doctors and dentists believe that her plans and methods of examining the school children are excellent, and that the program which she is instituting will save many children time which might otherwise be lost from school on account of sickness and disease. They have pledged to her their full cooperation in the maintenance of this program and hope that the good citizens of Canyon and Randall county will aid in the fulfillment of this program.

This organization states also that it wishes to recommend to the school authorities and the school board that they adopt the plan of the Red Cross nurse in eliminating children from school who have any infectious, contagious, or communicable diseases, and that these children not be allowed to return to their classes until they present a certificate from their physician or dentist stating that they are no longer capable of spreading the disease.

HELD IN JAIL FOR BREAKING INTO OFFICE

Ralph Wheat was arrested in the office of the Randall County Abstract Company Tuesday night, and is held in jail awaiting investigation. Shorty McCormick arrested Wheat in the building when called by the telephone operator who heard the glass in the front door broken out.

Owing to the absence of County Attorney J. D. Barker, no charge was filed against Wheat yesterday.

TO GIVE HALLOWEEN PARTY.

"The Goblins will get you if you don't watch out." This is the fear expressed by the Baptist Young People in planning a Halloween social for Oct. 31. The social is planned in the interest of the young people of both the college and community and in the hope of arousing interest in the Sunday School, Baptist Training Service, and Baptist Student Union work. Various committees have been appointed and with the plans now being promoted this promises to be the greatest social for young people in the entire year. "All ghosts will be there, all will be ghosts," meeting at the First Baptist Church 7:30 Monday evening, October 31st.
